Assuming region will prepare whatever materials you think you want to respond to the questions the administrator had, in consultation with oswer. Oeca is not preparing any materials. Thanks for checking.

Subject: Passaic briefing of the Administrator

Cynthia, Avi: With regard to the briefing of the Administrator re the Passaic next week, we'd like to confirm our understanding that we will be using the power point that was prepared for the original briefing on 1/31 and that no additional materials from the Region are needed. We're not aware of any additional materials being prepared by OECA or OGC, but if any are contemplated, please let us know if we can be of any assistance in their review or preparation. Thanks.

Eric
